A Guide to Ship Repair Estimates in Man Hours By Don Butler DTI Combined first class Engineers Certificate of competency for steam ships and motor ships. Chartered Engineer (C. Eng) Fellow of the Institute of Marine Engineers (F.I.Mar.E) Member of Society of Consulting Marine Engineers (M.C.M.S)

Don Butler has compiled an invaluable list of the man-hours required for ship repair estimates. All ships must undergo regular dry-docking for examination by a third party surveyor; this is a mandatory requirement for ships which ply their trade on either world wide or coastal area basis. This dry-docking period is usually used as a time to carry out known damage repairs, cleaning and painting, upgrades and regular machinery overhauls. The author provides estimates for all situations which may arise, enabling the repair superintendent to anticipate costs, and therefore to prepare an accurate repair specification well in advance, for issue to the repairer.

Don Butler has gathered the information in this book over more than twenty years in the repair field. He is a holder of the DTI Combined first class Engineers Certificate of competency for steam and motor ships and a Fellow of the Institute of Marine Engineers (F.I.Mar.E). He is also a Member of the Society of Consulting Marine Engineers and Ship Surveyors (M.C.M.S).

- Produced for technical superintendents of ship owners and ship managers; outlines the manner in which ship repair companies compile quotations.
- Made up of man-hours rather than monetary value, to assist long-term pricing; books of 'prices only' will have no long-term relevance, whereas time in man-hours will be universally applicable and more durable.

Editorial Review

Review

'This is an invaluable and rare little reference book written for those involved with costing shiprepairs. It is rare forproviding an independent maens by which repairs can be estimated without resorting to tariff rates published by individual shipyards. Invaluable because it is a very practical book containing only information necessary to fulfil the objective of obtaining a useful estimate....The format is simple. Information of the repairs is stated briefly. A table is then provided of the estimated manhours required for a particular job....This book will be a valuable tool for those involved with shiprepair. Those who would benefit in particular are superintendents and ship repair yards.'

Marine Engineers Review, March 2002

'By referencing man hours rather than monetary value, the book is universally applicable and will be of extended long-term relevance. It will assist technical superintendents in compiling repair specifications with a pricing strategy, so they can build up costings for their planned repair periods...The author provides estimates for all situations which may arise, enabling the repair superintendent to anticipate costs and therefore to prepare an accurate repair specification well in advance to be issued to the repairer.'

Maritime Journal, Feb. 2002

About the Author

Don Butler is a fellow of the Institute of Marine Engineers and a member of Society of Consulting Marine Engineers and Ship Surveyors, UK.

Users Review

From reader reviews:

Lori Leavitt:

What do you with regards to book? It is not important along with you? Or just adding material when you need something to explain what your own problem? How about your spare time? Or are you busy person? If you don't have spare time to do others business, it is make one feel bored faster. And you have spare time? What did you do? Everybody has many questions above. They have to answer that question simply because just their can do this. It said that about publication. Book is familiar in each person. Yes, it is suitable. Because start from on kindergarten until university need this particular A Guide to Ship Repair Estimates in Man Hours to read.

Mohammad Darling:

People live in this new morning of lifestyle always make an effort to and must have the time or they will get lots of stress from both way of life and work. So , once we ask do people have spare time, we will say absolutely of course. People is human not really a huge robot. Then we request again, what kind of activity do you possess when the spare time coming to you of course your answer can unlimited right. Then do you

ever try this one, reading publications. It can be your alternative throughout spending your spare time, the particular book you have read is actually A Guide to Ship Repair Estimates in Man Hours.

Victor Havens:

Playing with family within a park, coming to see the water world or hanging out with close friends is thing that usually you will have done when you have spare time, then why you don't try factor that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love A Guide to Ship Repair Estimates in Man Hours, it is possible to enjoy both. It is good combination right, you still need to miss it? What kind of hang type is it? Oh occur its mind hangout guys. What? Still don't buy it, oh come on its referred to as reading friends.

Gilbert Phillips:

As we know that book is significant thing to add our know-how for everything. By a guide we can know everything you want. A book is a set of written, printed, illustrated or perhaps blank sheet. Every year ended up being exactly added. This guide A Guide to Ship Repair Estimates in Man Hours was filled about science. Spend your free time to add your knowledge about your science competence. Some people has distinct feel when they reading the book. If you know how big benefit of a book, you can truly feel enjoy to read a guide. In the modern era like right now, many ways to get book you wanted.
