## The Origins of Human Society By Peter Bogucki

*The Origins of Human Society* traces the development of human culture from its origins over 2 million years ago to the emergence of literate civilization. In addition to a global coverage of prehistoric life, the book pays specific attention to the origins and dispersal of anatomically-modern humans, the development of symbolic expression, the transition from mobile foraging bands to sedentary households, early agriculture and its consequences, the emergence of social differentiation and hereditary ranking, and the prehistoric roots of ancient states and empires.

### Editorial Review

#### Review

"Bogucki has succeeded admirably in his attempt to review the most up-to-date findings and interpretive issues in world prehistory ... This book will enlarge and modify our understanding of prehistory." *Journal of World History*

#### From the Back Cover

The origins and development of human society are explored and illuminated in this compelling history. The book provides readers with an understanding of the evolution of humans and the cultures they established, from the first traces of humanity to the creation of early literate societies.

The author examines how *Homo Sapiens* emerged as the sole-surviving human species and developed into modern humans. He provides a global account of prehistoric life and the roots of modern societies and empires. The major topics covered include the creation of hierarchical societies and hereditary ranking, the origins of language, the importance of agriculture, the evolution of tool-making, the development of religion, and the beginnings of war.

*The Origins of Human Society* provides the essential foundation to the study of early civilization and reveals the origins of the major elements of modern human society and culture.

### Users Review

#### From reader reviews:

##### William Riser:

The reason? Because this *The Origins of Human Society* is an unordinary book that the inside of the e-book waiting for you to snap that but latter it will jolt you with the secret it inside. Reading this book next to it was fantastic author who also write the book in such remarkable way makes the content on the inside easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this ever again or you going to regret it. This unique book will give you a lot of advantages than the other book have such as help improving your skill and your critical thinking way. So , still want to delay having that book? If I were being you I will go to the reserve store hurriedly.

##### Gladys Dearth:

As we know that book is important thing to add our expertise for everything. By a book we can know everything we want. A book is a list of written, printed, illustrated as well as blank sheet.
