## Debating Archaeological Empiricism: The Ambiguity of Material Evidence (Routledge Studies in Archaeology) From Routledge

*Debating Archaeological Empiricism* examines the current intellectual turn in archaeology, primarily in its prehistoric and classical branches, characterized by a return to the archaeological evidence. Each chapter in the book approaches the empirical from a different angle, illuminating contemporary views and uses of the archaeological material in interpretations and theory building. The inclusion of differing perspectives in this collection mirrors the conceptual landscape that characterizes the discipline, contributing to the theoretical debate in archaeology and classical studies. As well as giving an important snapshot of the practical as well as theoretical uses of materiality in archaeologies today, this volume looks to the future of archaeology as an empirical discipline.

### Editorial Review

#### About the Author

**Charlotta Hillerdal** is Lecturer in Archaeology, University of Aberdeen, Scotland. Hillerdal's research focuses on theoretical archaeology, social identities and ethnic constructions. Her main research areas are Indigenous archaeology (esp. Yupik Alaska) and Viking Age Scandinavia and diaspora. Previous publications include: *People in Between. Ethnicity and Material Culture – a New Approach to Deconstructed concepts*

**Johannes Siapkas** is Associate Professor in Classical Archaeology and Ancient History, Uppsala University, Sweden. Siapkas' research focuses on the epistemological foundations of Classical Studies, and modern appropriations of classical antiquity. Previous publications include: *Heterological Ethnicity, Displaying the Ideals of Antiquity* (co-authored).
