## Oneness: The Teachings By Rasha

**NOTE: This book is the original version of the spiritual classic, now known as "Oneness," first published in 2003. It is identical to "Oneness," by Rasha, and not a different book.**

In February, 1998, Rasha had her first dialogue with the universal presence "Oneness." This conversation began a profound relationship in which the teachings of Oneness were communicated. As Oneness guided her step-by-step through the agonies and the exultation of an experiential voyage to God-realization, Rasha painstakingly documented the principles that are the foundation for a new level of understanding of the phenomenon we call "life." In unprecedented revelations, Oneness provides humanity with a startling new vision of the true nature of who we are and the world around us. This is a world where the rules that support our belief systems and form the basis of our so-called "scientific proof" are changing before our very eyes. Through Oneness, we learn how reality is manifested through vibrations and how our emotional responses draw our life experiences to us. The symptoms of the process of ascension - the shifting of our awareness into accelerating levels of reality - are all around us. Oneness guides us in recognizing these signs and maximizing their potential. This book takes us to the outer reaches of our own humanness and to the depths of Divinity within, and puts enlightenment within the reach of everyone. In the process, we realize the significance of the choice each of us has made to be here in these extraordinary times.
