**The Truce at Bakura: Star Wars Legends (Star Wars - Legends)** By Kathy Tyers

No sooner has Darth Vader's funeral pyre burned to ashes on Endor than the Alliance intercepts a call for help from a far-flung Imperial outpost. Bakura is on the edge of known space and the first to meet the Ssi-ruuk, cold-blooded reptilian invaders who, once allied with the now dead Emperor, are approaching Imperial space with only one goal; total domination. Princess Leia sees the mission as an opportunity to achieve a diplomatic victory for the Alliance. But it assumes even greater importance when a vision of Obi-Wan Kenobi appears to Luke Skywalker with the message that he must go to Bakura—or risk losing everything the Rebels have fought so desperately to achieve.

Features a bonus section following the novel that includes a primer on the *Star Wars* expanded universe, and over half a dozen excerpts from some of the most popular *Star Wars* books of the last thirty years!

### Editorial Review

From Publishers Weekly

Chronicles the further adventures of the characters from the Star Wars movies; a five-week PW bestseller.

Copyright 1994 Reed Business Information, Inc.

From Library Journal

Hard on the heels of the emperor's death, the Alliance receives word of an outpost planet besieged by a new alien invader, a lizardlike race of creatures bent on conquest of the galaxy.Flushed with their recent victory and stunned by the revelation of their parentage, Luke and Leia travel to the edge of the Empire to join forces with their erstwhile enemies to combat an even deadlier foe. Set prior to the events of Timothy Zahn's "Star Wars" cycle, Tyers's first foray into the Star Wars universe captures the feel of space opera while attempting a three-dimensional portrayal of the forces of a decaying empire. A worthwhile addition to a popular sf subgenre.

This involved tale follows the Rebel victory over the Empire in George Lucas' 1983 *Return of the Jedi*. Bakura is an almost terrestrial planet at a far reach of the galaxy; as the novel begins, it's being invaded by the unpronounceable Ssi-ruuk, a race of--well, of lizards. The Ssi-ruuk enjoy "enteching" people. That's a process where the enslaved human's energies are electronically transferred into androids. It's an awful thing to happen to anybody, so Luke Skywalker--after Ben Kenobi counsels him from the shadow-world--heads up his battle-weary force for a showdown. Meanwhile, on the surface of Bakura, there's a political wrangle going on, and in all of that Luke sort of falls for the aura of Senator Gaeriel Captison, but not, quite, for the senator herself. When's that boy going to settle down? Han Solo, Princess Leia, and various lovable robots are here, too, in small doses; mostly, this is Luke's book. The Force is with him, of course. Sort of a mix of Edgar Rice Burroughs (without Burroughs' humor), Robert Heinlein (as in *Starship Troopers*, say, but Tyers, a point in her favor, isn't as gung ho), and a lot of New Age notions, hiding inside the Force. Tyers' novel doesn't rival anything in the *Star Trek* series, but prequels and sequels to Lucas' films are in the works, so fans will make off with this like bandits. *John Mort*

### Users Review

From reader reviews:

**Ruth Mahan:**

As people who live in typically the modest era should be up-date about what going on or details even knowledge to make these individuals keep up with the era that is always change and move ahead. Some of you maybe will update themselves by looking at books. It is a good choice in your case but the problems coming to you is you don't know which you should start with.
