Neuroinflammation (Elsevier Insights) From Alireza Minagar

Inflammation is a central mechanism in many neurological diseases, including stroke, multiple sclerosis, and brain trauma as well as meningitis and contributes to the generation of pain. We are now beginning to understand the impact of the immune system on different nervous system functions and diseases, ranging from damage through tolerance to modulation and repair.

This book discusses some of the more common neuro-inflammatory diseases. Topics covered include multiple sclerosis, optic neuritis and Susac syndrome.

- Comprehensive review of the latest developments in neuroinflammation
- Includes contributions from leading authorities
