### Nothing But Time By Angeline Fortin

What is a girl to do when an awkward first date leads to a trip back in time?

When she agreed to go on a date with quantum physicist, Dr. David Fergusson, Kate Kallastad never expected that he would insist on demonstrating his breakthrough in his RAL funded research into the creation of a trans-space teleportation device. Nor did she expect to get caught up in a science experiment that would send both Kate and her date hurling through space-time.

Stranded in the past with only a diminishing hope that David will be able to send them home and nothing but time on her hands, Kate takes a step down from biochemist to take a job as a maid in the household of the new Earl of Harrowby. However, this Earl if no stuffy carbon copy of Walt Whitman but rather a stunning embodiment of masculine appeal who sends her senses reeling.

To Kate, Brandon Ryder, the Earl of Harrowby, is not like any man the 21st century had ever produced. Beyond gorgeous, he is commanding, austere, aristocratic... magnificent. His appeal to a woman who had never known all those qualities in a single man was undeniable. They just didn't build them like that anymore. He is reserved where she is merry, grounded where she is capricious. However, when Brand sets his urbane exterior aside and the passionate man within emerges, it is enough to set Kate's heart soaring.

Brandon Ryder has spent a lifetime bound by the rules of Society and one of those rules is that a gentleman doesn't trifle with the help. However, Kate Kallastad is no ordinary employee. His lovely new maid challenges him at every turn, astounding him with her forthright manner, by her audacity to treat him not as an Earl but as a mere mortal man. After years amid the prevarication of Society and a family that was distant at best, Brand finds Kate's honesty and comfortable familiarity tempting, daring him to break free of boundaries that have long ruled him, enticing him to indulge in the truest passion of his life... and his growing passion for her.

Eager to indulge in an unexpected love affair with Brand, Kate embraces a life in the past only to be confronted with a choice. Life in a time that has little to offer a 21st century girl besides a chance at love or a return to her home where she has family and a job she is passionate about? Once her decision is made, will Kate

regret her choice or will circumstances beyond her control change her mind for her when it is a matter of life or death?

Love takes a journey across time only to be challenged by risks, regrets and denial. When they are finally able to set all those things aside, will Brand and Kate find the right time for happiness and a life together?
