Vladimir Jankélévitch and the Question of Forgiveness From Lexington Books

The essays focus on the work of Vladimir Jankélévitch as a moral philosopher, particularly that aspect of his work dealing with the question of forgiveness. They treat topics such as the place of moral philosophy in relation to his work as a whole, his relationship to contemporary French thought, and the backgrounds of classical Judaic tradition and world literature. The centerpiece of this tableau is Jankélévitch's book *Le Pardon* (Forgiveness).

Chief among the distinguishing characteristics is its rigorous defense of what might be termed a forgiveness free of the entanglements that taint the common understanding of forgiveness—what Jankélévitch refers to as pseudo-forgiveness. The advocacy of forgiveness in the name of political or social expediency, as well as the psychological benefit for the victim, are similarly repudiated.

In their place, Jankélévitch substitutes a radical forgiveness that is “initial, sudden, spontaneous”—not able to erase the past, but able to create a new future and, thereby, a new relationship to the past. He does not permit even this future, however, to serve as forgiveness’s justification. For him, beyond all justifications, beyond justice itself, forgiveness is a gift akin to love.

Editorial Review

Review

A latter-day humanist in the tradition of Montaigne, the essays of the French-Jewish philosopher Vladimir Jankélévitch display a delicacy of insight and a depth of feeling as applied to the broadest range of themes—music, laughter, nostalgia, evil, irony and death. In this volume, a distinguished group of philosophers and historians turn their attention to the essay on forgiveness for which Jankélévitch is best known. Cast into high relief by the horrors of mid-twentieth century European history, the questions raised herein retain a moral urgency undiminished by time and no less of relevance today. (Peter E. Gordon, Amabel B. James Professor of History, Harvard University)
