Clinical Chemistry: Theory, Analysis, Correlation, 4e By Lawrence A. Kaplan, Amadeo Pesce, Steven Kazmierczak

This comprehensive, up-to-date, readable text acts as a complete clinical chemistry course and professional reference, providing detailed, specific information on the principles of clinical chemistry in laboratory diagnosis as well as the pathophysiologic changes that occur in disease and affect testing outcomes. Explanations of *Laboratory Techniques* (Part 1) lead the reader through various necessary laboratory techniques and practices. Chapters on *Pathophysiology* (Part 2) provide descriptions of how specific diseases affect the human body. A companion CD-ROM packaged with the book features Methods of Analysis, a comprehensive Urinalysis Manual, and an interactive Study Guide/Workbook to reinforce concepts. The book's clear writing and comprehensive coverage make it an ideal resource for both students and practitioners.

Instructor resources are available to qualified adopters; contact your sales representative for more information.

- A clear and concise writing style facilitates quick understanding and more effective exam preparation.
- Comprehensive coverage addresses the full range of issues in clinical chemistry.
- Unique new chapters on *Addiction*, *The Transplant Patient*, and *Point-of-Care Testing* discuss important clinical areas not covered in other books on the subject.
- A complete bibliography and list of references direct the reader to reliable sources for further exploration of topics.
- Each chapter begins with an outline and learning objectives, followed by a list of key terms designed to reinforce the most important information in each chapter and make it more memorable.
- Figures and tables are placed as close as possible to the text to which they refer, to aid reader comprehension.
- Relevant Internet sites direct the reader to additional online content that complements the topics discussed in each chapter.
- A companion CD-ROM contains 123 Methods of Analysis, a Urinalysis

Section, and a Study Guide/Workbook featuring over 700 questions and 30 case histories, bringing together practical pathophysiology laboratory problems and laboratory analysis.

With 68 expert contributors.

Editorial Review

About the Author

Lawrence A Kaplan, PhD, Director, Clinical Chemistry, Bellevue Hospital; Clinical Professor, Pathology, New York University, New York, NY; Amadeo J Pesce, PhD, DABCC, FNACB, Professor, Department of Pathology and Laboratory Medicine, College of Medicine, University of Cincinnati, Cincinnati, OH; Laboratory Director, Adams County Hospital, West Union, OH; Laboratory Director, Drake Center, Cincinnati, OH; and Steven Kazmierczak, PhD, Oregon Health and Sciences University, Department of Pathology, Portland, OR

Users Review

From reader reviews:

Derek Morton:

The book Clinical Chemistry: Theory, Analysis, Correlation, 4e can give more knowledge and also the precise product information about everything you want. So why must we leave a very important thing like a book Clinical Chemistry: Theory, Analysis, Correlation, 4e? A number of you have a different opinion about publication. But one aim that book can give many data for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or data that you take for that, you are able to give for each other; you may share all of these. Book Clinical Chemistry: Theory, Analysis, Correlation, 4e has simple shape but the truth is know: it has great and large function for you. You can appearance the enormous world by start and read a e-book. So it is very wonderful.

Arielle Griffin:

What do you regarding book? It is not important to you? Or just adding material if you want something to explain what you problem? How about your time? Or are you busy individual? If you don't have spare time to do others business, it is make you feel bored faster. And you have time? What did you do? Everybody has many questions above. They must answer that question due to the fact just their can do that. It said that about book. Book is familiar in each person. Yes, it is right. Because start from on jardín de infancia until university need that Clinical Chemistry: Theory, Analysis, Correlation, 4e to read.

James Thrasher:

This Clinical Chemistry: Theory, Analysis, Correlation, 4e are reliable for you who want to be a successful person, why. The key reason why of this Clinical Chemistry: Theory, Analysis, Correlation, 4e can be one of the great books you must have is usually giving you more than just simple examining food but feed you actually with information that possibly will shock your preceding knowledge. This book will be handy, you can bring it almost everywhere and whenever your conditions at e-book and printed people. Beside that this Clinical Chemistry: Theory, Analysis, Correlation, 4e giving you an enormous of experience like rich vocabulary, giving you trial run of critical thinking that could it useful in your day action. So , let's have it

and luxuriate in reading.

Donna Vandyne:

This Clinical Chemistry: Theory, Analysis, Correlation, 4e is great book for you because the content and that is full of information for you who also always deal with world and get to make decision every minute. This kind of book reveal it details accurately using great plan word or we can claim no rambling sentences inside. So if you are read this hurriedly you can have whole data in it. Doesn't mean it only provides you with straight forward sentences but tricky core information with lovely delivering sentences. Having Clinical Chemistry: Theory, Analysis, Correlation, 4e in your hand like obtaining the world in your arm, information in it is not ridiculous just one. We can say that no publication that offer you world within ten or fifteen small right but this guide already do that. So , this is good reading book. Hey there Mr. and Mrs. busy do you still doubt in which?
