Editorial Review

Review

"This book provides a comprehensive review of current anaesthetic practice... It is well illustrated with uncluttered diagrams and tables together with useful key points highlighted at the end of each chapter. The format in size, layout, and content is aimed at the examination candidate, but the reality is, it is a book for all." - *British Journal of Anaesthesia*

"This a good start for anyone who is rotating through anesthesia or is beginning a career in anesthesia. It discusses anesthesia in a practical way and does not overwhelm with abstract concerns or facts. Information is provided in a fun way."

-Tariq M. Malik, MD (University of Chicago Pritzker School of Medicine) for Doody's Review Service
