## Heidegger on Being Uncanny By Katherine Withy

There are moments when things suddenly seem strange?objects in the world lose their meaning, we feel like strangers to ourselves, or human existence itself strikes us as bizarre and unintelligible. Through a detailed philosophical investigation of Heidegger's concept of uncanniness (*Unheimlichkeit*), Katherine Withy explores what such experiences reveal about us. She argues that while others (such as Freud, in his seminal psychoanalytic essay, "The Uncanny") take uncanniness to be an affective quality of strangeness or eeriness, Heidegger uses the concept to go beyond feeling uncanny to reach the ground of this feeling in our *being* uncanny.

*Heidegger on Being Uncanny* answers those who wonder whether human existence is fundamentally strange to itself by showing that we can be what we are only if we do not fully understand what it is to be us. This fundamental finitude in our self-understanding is our uncanniness. In this first dedicated interpretation of Heidegger's uncanniness, Withy tracks this concept from his early analyses of angst through his later interpretations of the choral ode from Sophocles's *Antigone*. Her interpretation uncovers a novel and robust continuity in Heidegger's thought and in his vision of the human being as uncanny, and it points the way toward what it is to live well as an uncanny human being.

## Editorial Review

### Review

This book is an excellent piece of philosophy and scholarship. **Withy** offers a more complete and compelling account of the concept of the uncanny (*unheimlich*) in Heidegger's thought than anything currently available in the secondary literature. (Taylor Carman, Barnard College)

This is a superb book, remarkable simultaneously for the clarity and insight with which it guides the reader through some tangled philosophical, psychological, and literary thickets, and for its philosophical depth as a reading of Heidegger, why Heidegger matters, and how Heidegger's work illuminates our own projects and inquiries. (Joseph Rouse, Wesleyan University)

### About the Author

Katherine Withy is Assistant Professor in the Department of Philosophy at Georgetown University.

## Users Review

### From reader reviews:

#### John Carroll:

In this 21st hundred years, people become competitive in most way. By being competitive today, people have do something to make them survives, being in the middle of the crowded place and notice through surrounding. One thing that at times many people have underestimated the idea for a while is reading. Yeah, by reading a e-book your ability to survive enhance then having chance to stand than other is high.
