Prometheus Rising By Robert Anton Wilson

Prometheus Rising describes the landscape of human evolution and offers the reader an opportunity to become a conscious participant. In an astoundingly useful road map infused with humor and startling insight, Robert Anton Wilson presents the Eight Circuits of the Brain model as an essential guide for the effort to break free of imprinted and programmed behavior. Bob writes, "We are all giants, raised by pygmies, who have learned to walk with a perpetual mental crouch. Unleashing our full stature—our total brain power—is what this book is all about." The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

Editorial Review

Review

"Robert Anton Wilson speaks for that tiny but indispensable minority who are changing the way we think. To read him is to learn what the future holds, how to be part of the future and how to help create the future."
-- Robert Shea

"The man's glittering intelligence won't let you rest. First he shocks, then he enlightens. One is never the same after reading him. With each new book I welcome his wisdom, laced with his special brand of crazy humor." -- Alan Harrington, author of *The Immortalist*

"Bob has done it again for the first time ever! This book is everything I ever wanted to write in a practical guidebook on how to get here from there, and he's-as usual-first in print again! Just the exercise on finding quarters has paid for the book many times over." --E. J. Gold
