## Chemical Process Industry Safety By Prof K S N Raju

The book is written with a balanced and comprehensive approach towards chemical process safety, involving hazards, both of materials and processes. It includes analysis of hazards in plants in order to further explain the preventive and protective measures along with management involvement and safety audits to the readers. The text can be used as a textbook by under graduate students as well as a reference by industry professionals, consulting organizations, marketing personnel and others involved in safety aspects in process industry.

## **Editorial Review**

### **About the Author**

"K S N Raju is a retired professor of chemical engineering with involvement in chemical engineering education and research covering graduate and undergraduate students for 50 years. He received BSc (Honors) degree in chemical engineering from Andhra University in 1958, M.Tech from IIT Kharagpur in 1959 and PhD from Punjab University in 1971. Dr Raju has been involved in active interaction with the industry, taking up projects and executing them with the induction of graduate students' onsite in selected industries. He has also been responsible for developing chemical engineering departments at Panjab University, Chandigarh, India; Padmasri Dr B V Raju Institute of Technology, Andhra Pradesh, India; and BS University of Technology, Libya; besides being involved in curriculum development for several institutions as member of their boards of studies. Dr Raju has published over 90 papers and articles in international magazines and journals. He has supervised graduate research at doctoral and postdoctoral levels, and reviewed publications in international journals and magazines in engineering, including the prestigious assignment by Applied Mechanics Reviews of American Institute of Mechanical Engineers. He has delivered invited lectures on plate heat exchangers at the NATO Advanced Research Institute along with highly distinguished speakers at the international level. He has given onsite courses in industry, covering refineries, gas processing, petro-chemical, and fertilizer plants with practice-oriented approach, including lectures on several areas of chemical engineering to trainees and practicing engineers in petroleum and petrochemical industry and at international forums. His authorships include the book Fluid Mechanics, Heat Transfer, and Mass Transfer: Chemical Engineering Practice as a joint publication of the American Institute of Chemical Engineers and an American publisher. His other publications include Low Reynolds Number Heat Exchanger Design along with several distinguished authors by and an earlier book on Applied Chemistry."

## **Users Review**

### **From reader reviews:**

#### **Linda Musselwhite:**

In this 21st century, people become competitive in every way. By being competitive at this point, people have to do something to make these survive, being in the middle of the crowded place and notice by surrounding. One thing that oftentimes many people have underestimated that for a while is reading. Yep, by reading a e-book your ability to survive improves then having chance to stay than other is high. For you personally who want to start reading some sort of book, we give you this kind of Chemical Process Industry Safety book as beginning and daily reading book. Why, because this book is greater than just a book.

#### **Joseph Asher:**

Do you consider one of people who can't read pleasurable if the sentence chained from the straightway, hold on guys this aren't like that. This Chemical Process Industry Safety book is readable through you who hate the perfect word style. You will find the info here are arranged for enjoyable reading experience without leaving actually decrease the knowledge that want to provide to you. The writer involving Chemical Process Industry Safety content conveys thinking easily to understand by most people. The printed and e-book are not different in the articles but it is just different as it. So, do you even now thinking Chemical Process

Industry Safety is not loveable to be your top collection reading book?

**Lucia Stevenson:**

The book untitled Chemical Process Industry Safety contain a lot of information on the item. The writer explains her idea with easy means. The language is very clear to see all the people, so do certainly not worry, you can easy to read that. The book was written by famous author. The author will bring you in the new time of literary works. You can actually read this book because you can please read on your smart phone, or program, so you can read the book inside anywhere and anytime. In a situation you wish to purchase the e-book, you can available their official web-site along with order it. Have a nice read.

**Richard Diller:**

This Chemical Process Industry Safety is completely new way for you who has fascination to look for some information given it relief your hunger details. Getting deeper you onto it getting knowledge more you know or else you who still having tiny amount of digest in reading this Chemical Process Industry Safety can be the light food for yourself because the information inside that book is easy to get through anyone. These books acquire itself in the form that is reachable by anyone, that's why I mean in the e-book application form. People who think that in book form make them feel sleepy even dizzy this book is the answer. So there is no in reading a book especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss the idea! Just read this e-book style for your better life and knowledge.
