Herb-Drug Interactions in Oncology, 2nd edition By Barrie Cassileth, K. Simon Yeung, Jyothirmai Gubili

The book provides science-based information for the medical community about herbal remedies, other dietary supplements, and non-mainstream products promoted as cancer treatments. Each herb or remedy description is accompanied by information as to its origin, most common uses, benefits, and risks/dangers. The book provides detailed information on over 250 remedies and describes their constituents, mechanisms of action, adverse reactions, pharmacokinetics, and contraindications. Information on each herb or other remedy was developed through careful and critical reviews of research conducted by experts in pharmacy, botanicals, and complementary therapies. Each herb or product is described in terms of the following sections: common name, scientific name, key words, clinical summary, herbal constituents, warnings, mechanisms of action, usage, adverse reactions, drug interactions, dosage, literature summary and critique, and notes. This book has the look and feel of a fine field guide to medicinal plants, thanks to the beautiful drawings by Angela Donato, and it will be of interest to a wide audience beyond the medical specialists, including cancer patients.

Users Review

From reader reviews:

Mary Manzo:

Do you have favorite book? Should you have, what is your favorite's book? Guide is very important thing for us to learn everything in the world. Each e-book has different aim or maybe goal; it means that book has different type. Some people sense enjoy to spend their time to read a book. They can be reading whatever they have because their hobby is reading a book. Think about the person who don't like reading a book? Sometime, person feel need book after they found difficult problem or even exercise. Well, probably you will need this Herb-Drug Interactions in Oncology, 2nd edition.

Jill Weber:

Book is written, printed, or illustrated for everything. You can learn everything you want by a guide. Book has a different type. As you may know that book is important thing to bring us around the world. Next to that you can your reading skill was fluently. A publication Herb-Drug Interactions in Oncology, 2nd edition will make you to be smarter. You can feel much more confidence if you can know about everything. But some of you think that open or reading a book make you bored. It is not make you fun. Why they are often thought like that? Have you trying to find best book or ideal book with you?

Betty Brown:

The book Herb-Drug Interactions in Oncology, 2nd edition can give more knowledge and also the precise product information about everything you want. Why then must we leave a good thing like a book Herb-Drug Interactions in Oncology, 2nd edition? Some of you have a different opinion about guide. But one aim which book can give many information for us. It is absolutely right. Right now, try to closer using your book. Knowledge or details that you take for that, you can give for each other; you could share all of these. Book Herb-Drug Interactions in Oncology, 2nd edition has simple shape but the truth is know: it has great and massive function for you. You can appear the enormous world by wide open and read a publication. So it is very wonderful.

John Threadgill:

Many people spending their time by playing outside with friends, fun activity having family or just watching TV all day every day. You can have new activity to spend your whole day by studying a book. Ugh, ya think reading a book really can hard because you have to use the book everywhere? It all right you can have the e-book, getting everywhere you want in your Smartphone. Like Herb-Drug Interactions in Oncology, 2nd edition which is getting the e-book version. So , try out this book? Let's notice.
