### **The Dinosaur Delusion** By Eric Lyons, Kyle Butt

For several decades dinosaurs have been laden with a backbreaking load of evolutionary baggage. They have been exploited by evolutionists, and used to force-feed the general population evolutionary propaganda. The Dinosaur Delusion effectively refutes the erroneous concept that dinosaurs lived millions of years before humans. The authors masterfully weave scientific and historical evidence into the Biblical model of creation, showing that true science does not contradict an accurate reading of the Bible. Written in an engaging style, The Dinosaur Delusion is a must-read for anyone interested in the field of Christian creation apologetics.
