Editorial Review

Review

"Solid scholarship, a consummate knowledge of the primary sources, and a willingness to think outside the normal boundaries of the discipline make this a book that every self-critical archaeologist must read.."

-Journal of the West

"The scholarship is solid, and the prose...is often hysterically funny."

-"The Key Reporter

"Kehoe succeeds in summarizing how American archaeology has come to be what it is. She is at her best in discussing developments in Britain during the late 19th century, which in many respects set the stage for what would occur in America a short time later.....Graduate students and faculty."

-"Choice, June 1999

"Many books help us know. Alice Kehoe's helps us think as well. Feisty, passionate for truth and angry with those too lazy to pursue it, Kehoe writes with the fervor of a scholar unwilling to accept the unconsidered. The junk-yard dogs will howl, but perhaps they will awaken the neighbors to look afresh at the unconsidered preconceptions of American prehistory."

-Roger Kennedy, author of "Hidden Cities, Director Emeritus of the National Museum of American History, and former Director of the National Park Service

About the Author

Alice Beck Kehoe is Professor of Anthropology at Marquette University. She is the author of *Humans: An Introduction to Four-Field Anthropology* (1998), published by Routledge.
