Editorial Review

Review

'[The contributions] collectively provide such a thorough identification and analysis of the source base available for understanding the complex realities of Khazar history that they comprise nothing less than a reference work of encyclopedic content and utility. Scholars will surely be thankful for these essays, but those who teach in academia will also value them for what they can bring to classroom discussions by making available to students such accessible information.' Edward J. Lazzerini in *Journal of Asian History*, 43.2
