## The World's Great Chess Games By Reuben Fine

Modern chess began in 1851 in the London Tournament of the Crystal Palace Exposition. Today, the principles of winning play have been explored and codified: a beginner can learn more about chess in one year, than a master learned a century ago during his entire career. This book is the first detailed presentation, by a Grand Master, of a complete analysis of the world's best games. For all who are interested in the fine points, the author has selected the most notable examples of brilliant play and strategy, the attack and the defense. Among the masters whose best games are to be found in the work are: Alekhine, Botvinnik, Capablanca, Euwe, Lasker, Marshall, Morphy, Rubinstein, Steinitz, Tarrasch, Tartakower, and many, many others. Reuben Fine had not taken chess seriously until late high school days. Yet he became a Grand master at the age of twenty-one, and was dual winner of the great AVRO Tournament of 1938. Dr. Fine was officially ranked - on the basis of twenty years of tournament play - as the Number 1 player of the United States, and a Challenger for the World Championship. Dr. Fine taught psychology at the College of the City of New York and at Brooklyn College. He and his family lived in New York City, where he practiced psychoanalysis. Reuben Fine was a member of three U. S. World Championship Teams. He tied for first prize with Keres in the great AVRO tournament of 1938 and has won the U. S. Speed Championship four times. Among his famous books are *The Ideas Behind the Chess Openings*, *The Middle Game in Chess*, *Basic Chess Endings*, *Practical Chess Openings*, and his great and continuing best seller, *Chess the Easy Way*.
