'...does not disappoint. It is everything a 'How to' book needs to be, stuffed with plain common sense and sprinkled with useful tips.' The Biologist

'... strongly recommended for all geoscientists. There are three possible ways to use it. The first is to read it as a normal book from the first page to the last ... The second way is to use it as a reference ... The third way is ... as a textbook ... Despite of what way to choose, you will find this book always very suitable.
