**The Behavior Guide to African Mammals: Including Hoofed Mammals, Carnivores, Primates** By Richard D. Estes

*The Behavior Guide to African Mammals* is as different from a conventional field guide as motion pictures are from a snapshot. Whether we are able to look at them face to face, on television, or in the hundreds of illustrations provided here by Daniel Otte, this guide allows us to understand what animals do and what their behavior means.

Drawing on his own extensive fieldwork and on the research of many other scientists, Richard Despard Estes describes and explains the behavior of four major groups of mammals. Estes's remarkably informative guide is as up-to-date for the zoologist as it is accessible for the interested onlooker.

### Editorial Review

From the Inside Flap

Our knowledgeable safari guides turned often to their prized and already well-thumbed copies, and we continue to refer to ours now that we are back home."—Douglas F. Williamson, Jr., National Council, World Wildlife Fund, U.S.
