Since their home was invaded by enemy soldiers and transformed into a war zone, Ellie and her friends have been fighting for their lives. They have learned survival skills out of necessity and taken care of each other through impossibly dark times. Now, with a roar like a train in a tunnel, the war has entered its final days. There's no more sitting around, no more waiting. There's only fast decisions, fast action, fast thinking—and no room to get it wrong. But it may just be the most dangerous yet. And not everyone will survive.

Editorial Review

Amazon.com Review

At last, the final episode of the gripping Tomorrow series by wildly popular Aussie author John Marsden has crossed the Pacific, and this concluding chapter in the lives of Ellie, Fi, Homer, Kevin, and Lee may be the most exciting one yet. Informed by Colonel Finley that the military is making a move that could be compared to the D-day attack of WWII, the outback teen guerillas know that the end of the bewildering war that changed their lives is drawing near. Armed with plastic explosives and grenades, courtesy of the New Zealand Army, they have been instructed to "spread chaos and confusion behind their (enemy) lines in every way, shape and form." For Ellie and company, this means targeting a hostile refueling station and train tracks. Of course, nothing is ever easy. There are still the feral kids to worry about and the dismal discovery that soldiers have infiltrated Hell, their only secured hiding place in the bush. As *The Other Side of Dawn* rockets at breakneck speed towards its stunning climax, only one thing is certain: there is no guarantee that any of them will make it through this last conflict alive.

Not a book for new recruits, *The Other Side of Dawn* will be most enjoyed by those hard-core fans who have been with Ellie and the gang from the beginning. Wirrawee buffs will be rewarded with classic Marsden: teeth-jarring action sequences interspersed with meaningful moments between friends who may not see the sunrise again together. This is a satisfying ending to a smashing good series. (Ages 13 and older) --*Jennifer Hubert*

From Publishers Weekly

Australian author John Marsden's *The Other Side of Dawn* brings his Tomorrow series to its dramatic conclusion. Bestsellers in Australia, the seven-book series revolves around a dwindling group of teenagers fighting for their lives and Australia's survival against a brutal invading army. Here, as the war enters a final phase, the dangers for narrator Ellie and her friends seem greater than ever. Who among them will find a lasting peace? Ages 12-up.

From School Library Journal

Grade 9 Up--This final installment in the series takes place approximately one year after Ellie and a group of friends became reluctant guerilla fighters in the war that broke out while they were on a camping trip in the Australian bush. The teen and her surviving friends are asked to conduct raids and sneak attacks on the enemy, creating confusion among their troops at a critical point in the fighting. In spite of the great danger, they agree and the action intensifies. Ellie, the narrator, is a strong female character and the weight of her leadership responsibilities and the urgency of the situations the group faces are vividly conveyed. The action sequences are gripping and there is an expected amount of violence. The confusion, depression, and tensions that follow the end of the fighting are also realistically depicted. The book can stand alone, but the many references to the action and characters from the earlier titles make it a better choice for those already familiar with the series. Purchase where the previous books have been popular.
