**Jonathan Levi** is an experienced entrepreneur, angel investor, and lifehacker from Silicon Valley. After successfully selling his Inc 5,000 rated startup in April of 2011, Levi packed up for Israel to gain experience in the Venture Capital industry. While in Israel, Levi enlisted the help of speed-reading expert and university professor Anna Goldentouch and machine learning expert Dr. Lev Goldentouch, who tutored him in speed-reading, advanced memorization, and more. Levi saw incredible results while earning his MBA from INSEAD, and was overwhelmed with the amount of interest his classmates expressed in acquiring the same skill set. Since acquiring this “SuperLearning” skill, he has become a proficient lifehacker, optimizing and “hacking” such processes as travel, sleep, language learning, and fitness. He later collaborated with his tutors, creating the blockbuster Udemy course Become a SuperLearner among others. How GenY Entrepreneurs are Rocking the World of Business and 8 Ways You Can Profit from Their Success, among other blogs, podcasts, and publications.

**Dr. Lev Goldentouch** earned his PhD in machine learning and information theory when he was 27 years old. Understanding the similarities of machine learning and human super-learning allowed Lev to learn immense amounts of knowledge in many technological and cognitive subjects. Immediately afterwards Lev opened a consulting company, which offers its services to highly skilled individuals, agile startups and technological giants like Samsung. Lev is an active lifehacker and holds a number of patents.

**Prof. Anna Goldentouch** started teaching super-learning skills when she was 17 years old. Anna developed the super-learning abilities as a tool to deal with personal dyslexia, after taking several courses on super-learning. After finishing advanced degrees in education and sociology, Anna started to teach in Bar Ilan and Ben Gurion Universities in Israel.
