### **Editorial Review**

#### **About the Author**

Dr. George Brooks is Professor VII; Director, Exercise Physiology Laboratory at The University of California - Berkeley.

Dr. Kenneth Baldwin is Professor Physiology & Biophysics at The University of California - Irvine.

Thomas D. Fahey, Ed.D., is professor of Kinesiology at California State University, Chico, where he teaches Exercise Physiology and Principles of Strength and Conditioning . He also volunteers as an assistant coach with the track and field team. He received his doctorate from the University of California, Berkeley. Dr. Fahey has written college textbooks and trade books on exercise physiology, wellness, athletic training, weight training, personal training, golf, and ergogenic aids. He has also written hundreds of articles for scholarly journals and popular magazines. He is a contributing editor and writes monthly research columns for Muscular Development, Fitness RX for Women and Fitness RX for Men magazines. His interests include travel, skiing, golf, tennis, weight training, hiking, and discus throwing. Dr. Fahey is a world-class masters discus thrower and was an All-American discus thrower in college. He won eleven straight US National Masters Championships, five medals at the World Masters Championships (including world champion in 2003), and three gold medals in the World Masters Games. He is a former competitor in powerlifting, highland games, alpine skiing, and tennis.

### **Users Review**

#### **From reader reviews:**

##### **Micheal McDonough:**

Book is definitely written, printed, or outlined for everything. You can realize everything you want by a book. Book has a different type. We all know that that book is important matter to bring us around the world. Alongside that you can your reading ability was fluently. A e-book Exercise Physiology: Human Bioenergetics and Its Applications (B&B Physical Education) will make you to become smarter. You can feel more confidence if you can know about everything. But some of you think this open or reading the book make you bored. It's not make you fun. Why they can be thought like that? Have you looking for best book or acceptable book with you?

##### **Karen McCarthy:**

The particular book Exercise Physiology: Human Bioenergetics and Its Applications (B&B Physical Education) has a lot of information on it. So when you check out this book you can get a lot of help. The book was compiled by the very famous author. This articles author makes some research previous to write this book. This kind of book very easy to read you can get the point easily after scanning this book.

**Mary Tiller:**

You are able to spend your free time to see this book this publication. This Exercise Physiology: Human Bioenergetics and Its Applications (B&B Physical Education) is simple to create you can read it in the park your car, in the beach, train in addition to soon. If you did not get much space to bring often the printed book, you can buy the particular e-book. It is make you much easier to read it. You can save the book in your smart phone.
