## Future Fastforward: The Zionist Anglo-American Empire Meltdown By Matthias Chang

For the first time, the hidden force of the Zionist Anglo-American Empire that acts on our very lives is exposed in these pages. Erudite scholar of political intrigue and conspiracy, Matthias Chang, makes a convincing case replete with impeccable historical references, of plans put into motion many years ago to control the course of human life on earth. The power elites of the Zionist Anglo-American Axis have been in control of the political systems throughout the world, and there is not a single country in which their cunning and evil influence has not been felt. Their politics of divide and rule has manifested in various ways on different scales: the Cold War between communism and capitalism; managed conflicts in the oil-rich Middle East aided by the creation of Israel; and the illusion of choice in apparent democracies. Wars are invariably used to abruptly change political systems, and never for the superficial good-versus-evil reasons so vehemently declared.

### **Editorial Review**

#### **Review**

A history-making book you'll find hard to put down. What makes Future Fastforward especially powerful and fascinating is that this is the first book critical of the New World Order and the Zionist-Anglo-American elite written by a former highranking official of a major foreign government to be published on American soil. A must read for all Americans who not only hope to have an understanding of the forces that led the United States into the world quagmire where it is today but who also pray for a better future, one in which the New World Order intriguers can be brought to heel. --Barnes Review
