## Last Man Down: A Firefighter's Story of Survival and Escape from the World Trade Center By Richard Picciotto, Daniel Paisner

On September 11, 2001, FDNY Battalion Chief Richard "Pitch" Picciotto answered the call heard around the world. In minutes he was at Ground Zero of the worst terrorist attack on American soil, as the Twin Towers of the World Trade Center began to burn—and then to buckle. A veteran of the 1993 bombing of the World Trade Center, Picciotto was eerily familiar with the inside of the North Tower. And it was there that he concentrated his rescue efforts. It was in its smoky stairwells where he heard and felt the South Tower collapse. Where he made the call for firemen and rescue workers to evacuate, while he stayed behind with a skeleton team of men to help evacuate a group of disabled and infirm civilians. And it was in the rubble of the North Tower where Picciotto found himself buried—for more than four hours after the building's collapse.

This is the harrowing true story of a true American hero, a man who thought nothing of himself—and gave nearly everything for others during one of New York City's—and the country's—darkest hours.

### Editorial Review

#### From Publishers Weekly

When the north tower of the World Trade Center collapsed on September 11, Picciotto, an FDNY battalion commander, was inside it, on a stairwell between the sixth and seventh floors, along with a handful of rescue personnel and one "civilian." This outspoken account tells of that indelible day, and it will shake and inspire readers to the core. The book starts by listing the 343 firefighters who died from the attacks, setting an appropriately grave tone to what follows, which begins as the author heads to work at Engine Co. 76 and Ladder Co. 22 on Manhattan's Upper West Side. Then comes a call on the intercom, and soon he is racing down to the World Trade Center. Arriving, he dodges falling bodies, runs inside and upstairs with a battalion not his own. Early in the book, this straightforward accounting is intercut with flash-forwards to 9:59 a.m., when Picciotto, on the 35th floor of the north tower, experiences the collapse of the south tower not visually, but aurally and in his body ("the building was shaking like an earthquake... but it was the rumble that struck me still with fear. The sheer volume of it. The way it coursed right through me... like a thousand runaway trains speeding toward me"). Picciotto, writing with Paisner (coauthor of *autobios* by Montel Williams and George Pataki, among others), pulls no punches, naming those who hindered his work and those who helped, taking numerous swipes at what he sees as a fire department bureaucracy whose money pinching puts firefighters at risk. This mouthiness can grate, but it certainly gives the flavor of a man and a department whose heroism became clear to all that day. It's Picciotto and his comrades' courage and willingness to sacrifice that every reader will remember, and honor, upon closing this gritty, heartfelt remembrance of a day of infamy and profound humanity.

#### From Booklist

This gripping, first-person account of a 9-11 survivor provides a firefighter's view of the World Trade Center catastrophe. An invaluable eyewitness to history as well as a professional just doing his job, Battalion Commander Richard Picciotto was inside the North Tower when it collapsed. Determined to be the last man down, Picciotto coordinated the rescue effort of several dozen incapacitated civilians. Stranded on the landing between the sixth and seventh floors when the building came tumbling down around and on top of him, Chief "Pitch," a small band of fellow firefighters, and one grandmotherly civilian improbably survived the collapse in a small vacuum created by the placement of the twisted debris. Collaborator Paisner, a best-selling biographer, allows Pitch to tell his harrowing story in his own no-nonsense voice. Picciotto bluntly castigates the departmental administrators responsible for the cost-cutting and ultimately life-threatening measures that left the leadership ranks depleted and the men on the line seriously underequipped. Certain to be a best-seller, this inspirational account serves as a tribute to all the firefighters and rescue personnel who unquestioningly put their lives on the line that day. *Margaret Flanagan*

"Picciotto's account is one survivor's remarkable story... Its strength is its tone: conversational, free of literary pretense... The book is both grim and inspiring." —**USA Today**
