**Cosmonauts: Birth of the Space Age** From Scala Arts Publishers Inc.

For decades, the story of the world's first space-faring nation has been underplayed in the West. Now, for the first time, the remarkable account of Russia's space programme will be brought to light. This book accompanies a landmark exhibition at the Science Museum, London, which represents a major collaboration with the Moscow State Memorial Museum of Cosmonautics and the Federal Space Agency, Roscosmos.

Cosmonauts: Birth of the Space Age offers a once-in-a-lifetime opportunity to see objects that have never before left Russia, including rockets that launched the space age, actual craft that carried humans into space, the spacesuits, equipment and personal mementoes of those who flew, alongside stunning artworks that articulated Russia's longing for space. But this is far more than simply a book of exceptional objects; it is also a book of incredible stories. These are the stories of the people who dreamt of early space exploration, those who made it happen, those who risked their lives to experience it and those who continue its legacy today.

## **Editorial Review**

### **Review**

'If seeing Tim Peake soar into orbit in Russian cosmonaut technology with echoes of the Soviet era whetted your appetite for Sputnik and space dogs, or if your kids are into space, or if you want to see one of the most impressive collections of space-age artefacts ever assembled in Britain, the best exhibition to visit over the holidays is Cosmonauts at the Science Museum in London. ... A spectacular display of some of the most important relics of humanity's obsession with space.' JONATHAN JONES IN THE GUARDIAN; 'You will leave Cosmonauts with a different view of humanity's place in the cosmos.' PROFESSOR BRIAN COX

### **About the Author**

Doug Millard is Deputy Keeper of Technologies and Engineering at the Science Museum, London.

## **Users Review**
