Sheltering Sky By Paul Bowles

A beautiful 65th anniversary paperback edition of the landmark literary work by acclaimed author Paul Bowles.

In this classic work of psychological terror, Paul Bowles examines the ways in which Americans apprehend an alien culture—and the ways in which their incomprehension destroys them. The story of three American travelers adrift in the cities and deserts of North Africa after World War II, *The Sheltering Sky* is at once merciless and heartbreakingly compassionate. It etches the limits of human reason and intelligence—perhaps even the limits of human life—when they touch the unfathomable emptiness and impassive cruelty of the desert.

Editorial Review

Amazon.com Review

American novelist and short-story writer, poet, translator, classical music composer, and filmscorer Paul Bowles has lived as an expatriate for more than 40 years in the North African nation of Morocco, a country that reaches into the vast and inhospitable Sahara Desert. The desert is itself a character in ***The Sheltering Sky***, the most famous of Bowles' books, which is about three young Americans of the postwar generation who go on a walkabout into Northern Africa's own arid heart of darkness. In the process, the veneer of their lives is peeled back under the author's psychological inquiry.

Review

"It stands head and shoulders above most other novels published in English since World War II."--"The New Republic""[*The Sheltering Sky*] is one of the most original, even visionary, works of fiction to appear in this century."--Tobias Wolff

From the Inside Flap

The story of three American travelers adrift in the cities and deserts of North Africa after World War II examines the way Americans apprehend an alien culture and the way their incomprehension destroys them.

Users Review

From reader reviews:

Robert Johnson:

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite guide and reading a reserve.
