Visual Anatomy & Physiology combines a visual approach with a modular organization to deliver an easy-to-use and time-efficient book that uniquely meets your needs—without sacrificing the comprehensive coverage of A&P topics required for careers in nursing and other allied health professions. The **Second Edition** addresses tough physiology topics with new and revised two-page modules and corresponding new Coaching Activities in MasteringA&P®. Brand-new end-of-chapter study and practice materials include a narrative Study Outline and comprehensive Chapter Review Questions. Module Reviews and Section Reviews, appearing throughout each chapter, give you additional tools for learning. In response to the strong demand from A&P instructors, a brand-new *Visual Anatomy & Physiology Lab Manual* uses the same visual approach and modular organization to help you succeed in the lab.

This program presents a better teaching and learning experience by providing:

- **Personalized learning with MasteringA&P:** Become engaged with new “tough topic” Coaching Activities and a wide range of other question and activity types—all automatically graded.

- **A visual approach and modular organization:** The two-page modules seamlessly integrate text and visuals to guide you through complex topics and processes with no page flipping. The addition of new content in select modules gives you a better understanding of physiology.
- **Frequent practice:** Review questions at the end of each module, section, and chapter encourage and support practice. In the **Second Edition**, the Chapter Review includes a new comprehensive Study Outline and new traditional Chapter Review questions. You can continue practicing with MasteringA&P.
- **Learning outcomes that tightly coordinate with teaching points:** The clean one-to-one correspondence between the numbered chapter-opening Learning Outcomes and the numbered two-page modules give you an easy learning path and instructors an easy vehicle for assessment.
- **Streamlined learning in the lab:** The new *Visual Anatomy & Physiology Lab Manual* uses the same visual approach and modular organization to help you succeed in the lab.
